

Cartuccia ad uso tecnico e industriale, adatta per i trattamenti che temono la migrazione di fibre e dove si richiede una notevole purezza del filtrato e una lunga durata

Filtering cartridge for technical and industrial treatment. Suitable to avoid fibers migration and where is requested a purity of filtrate and a long life.

FPP

Caratteristiche Tecniche :

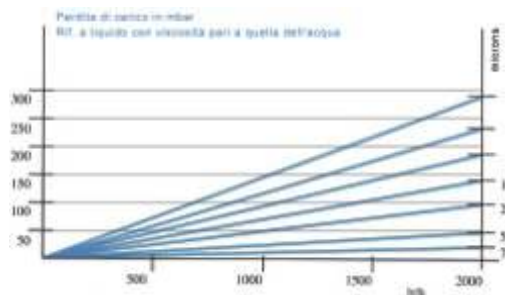

- Cartuccia in fiocco di PP
- Adatta a tutti i contenitori standard
- Sistema unico di costruzione senza anima di supporto
- Eccezionale ritenzione delle particelle con qualità costante del filtrato
- Minime perdite di carico e portate elevate
- Migrazione di particelle non rilevabile
- Densità progressiva delle fibre con porosità controllata
- Gradi di filtrazione nominali o assoluti effettivi
- Regolare durata della cartuccia

Technical features :

- Meit blown cartridge
- Suitable for all standard housing
- Unique construction system, without a supporting core
- Exceptional particle retaining power with constant quality of the filtered material
- Minimised flow resistances and high rates flow
- Undetectable particle migration (Lowest Detection Limit)
- Progressive fibre density with controlled porosity
- Nominal or absolute effective filtering degrees
- Regular duration of the cartridge
